Dissemination of ad in New Mexico and Nevada radio markets. Independent Expenditure Notice (IEN) is amended to correct the total reflected in the Calendar YTD Per Election for Office Sought (CYTDPEOS) field reported due to a limitation in the FEC Filing Software (FFS) and to correct the data for an accurate Post-General Report. This amendment does not add transactions, or change any detail related to amount or date of disbursement(s), or date(s) of dissemination as originally reported. All originally filed IENs were timely filed. Transactions were originally reported based on discreet radio broadcasting market in which the radio ads were run since the FFS requires a state jurisdiction designation for the creation of a IEN (report jurisdiction field), and permits the state jurisdiction indication for each transaction (transaction field) if any. However, it is discovered that when the FFS aggregates for the CYTDPEOS across all IE transactions, the FFS prioritizes the fields for state information (including report jurisdiction field and the transaction field) over the fields that indicates the office. Therefore, the FFS calculates the CYTDPEOS 'per state/office' rather than 'per office.' Consequently, despite the fact that the same office (president) was indicated for all IEs transactions originally reported, the FFS will not render accurate CYTDPEOS totals for the single nationwide election on the Post-General without revising the data through amendments to IENs to remove the state (radio market) data.
